

Accelerating Storage Efficiency

IBM Storwize V7000 and Storwize V7000F storage solutions

IT staff must deliver more

Services faster and more efficiently.

The top 2 storage pain points for IT Managers are delivering performance and rapid capacity growth¹

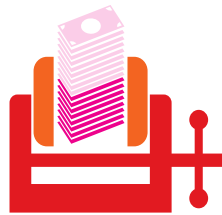

25% of all mission-critical will be managed and stored with solid-state solutions, by 2018²

New Storwize V7000 all-flash or hybrid flash

Lower cost and improve performance with virtualized, enterprise-class, flash-optimized storage:

Hardware-accelerated IBM® Real-time Compression™ **reduces cost by up to half³**

Dramatically improve performance for compressed data

Deploy with confidence with IBM compression & performance guarantees

45%

Fast

up to 45% improved performance

400

Efficiency

Unique heterogeneous data services for almost 400 storage systems

Scalability

up to 8PB

Learn how to increase **storage efficiency**
